AT-M is an adapter grommet (based on large KT grommets) with integrated metric threads. The AT-M adapter grommets are made of elastomer with a polyamide body. AT-M adapter grommets are available with inner threads M12 x 1.0, M16 x 1.5, M20 x 1.5 and M25 x 1.5.

The AT-M is ideal for creating an interface for signal, data, power or hybrid connectors by simply screwing them into the AT-M thread. Pressure compensation elements or hose glands up to M25 x 1.5 can also be screwed into the AT-M.

icotek also offers screw plugs for sizes M16, M20 and M25 to close the new adapter grommet with the metric internal thread AT-M.

AT-K-M is an adapter grommet (based on small KT grommets) with integrated metric threads, suitable for split icotek cable entry systems. The AT-K-M adapter grommets are made of elastomer with a nickel-plated brass body. AT-K-M adapter grommets are available with inner threads M5 x 0.5, M8 x 1.0, M12 x 1.0, M12 x 1.5, M14 x 1.0 and M16 x 1.5 and the AT-K-Z grommets with Whitworth pipe threads according to ISO 227-1 (BSP) in sizes 1/8" and 1/4".

By using the AT-K-M adapter grommet several connectors can be inserted directly into the cable entry frame e.g. pneumatic bulkhead connectors M12 x 1.0, metric connectors and pressure compensation elements.

They are compatible with all split icotek cable entry systems (suitable for KT cable grommets).

Specificaties

IP-classificatie (EN 60529)	IP54, IP55, IP64, IP65, IP66
Materiaal	Elastomeer Basisframe: Polyamide
Vlam klasse	UL94-V0, zelfdovend
Temperatuur	-40 C° tot 100 C°
Eigenschappen	zonder siliconen, halogeenvrij

Voordelen

- Connectoraansluitingen kunnen rechtstreeks in het kabelinvoersysteem worden geïntegreerd
- Aparte uitsparingen voor connectoren zijn niet meer nodig
- Ruimtebesparende oplossing
